Datalake

Overview

Xaasio Data Lake is a scalable, high-performance data storage and management solution designed to handle vast amounts of structured and unstructured data. It provides a unified platform for data ingestion, storage, and analytics, enabling organizations to harness their data for actionable insights and enhanced decision-making.

Why Xaasio?

Make in India Company.

Offers comprehensive life cycle administration, including monitoring, alerting, and seamless upgrade.

Reduces Total Cost Of Ownership (TCO) for cloud infrastructure.

Provides long-term security updates and compliance with international standards.

BENEFITS

Enhanced Data Accessibility

Centralize data storage to enhance accessibility and streamline data management.
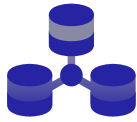

Improved Decision-Making

Use advanced analytics and real-time insights for informed choices.

Operational Efficiency

Simplify and cut overhead with unified data management..

Scalability

Effortlessly scale storage and processing for growing data and evolving needs.

Flexible Open-Source Development

Xaasio Data Lake offers an adaptable environment for developing and optimizing big data projects.

Streamline Big Data with Managed Hadoop

Xaasio handles Hadoop deployment, management, and scaling, so you can focus on your business.

Efficient Big Data

Xaasio Data Lake simplifies managing and analyzing large datasets with open-source technology.

Optimize Big Data with Xaasio Compute and Storage

Integrate Xaasio's compute and storage for efficient, reliable data processing.

Key Feature

Scalable Storage

Manage growing data with scalable solutions.

Real-Time Data Processing

Enable real-time data for quick decisions.

Advanced Analytics

Use built-in tools to quickly extract insights.

Security & Compliance

Protect data with strong security and industry compliance.

Cost-Efficient

Optimize costs with pay-as-you-go pricing and efficient data management.

Support & Service

- 24 x 7 engineering support by technical experts.

- Assured response time of 15 minutes and round the clock support to solve critical issues.

SLAs

- Upto 99.9% availability SLA.
- Read/Write latency SLA
