

# XaasIO Backup

## > Enterprise-Grade Data Protection Solution

### Benefits

#### Increased Data Security

Encryption and authentication block unauthorized access.

#### Business Continuity

Rapid recovery minimizes downtime and restores operations.

#### Scalable for Growth

Adapts to growing data and needs without performance loss.

#### Regulatory Compliance

Ensures data retention and auditing meet requirements.

#### Operational Efficiency

Automates backups and monitors system health, reducing manual work.

### Overview

XaasIO Backup is a robust and reliable backup solution designed to meet the needs of modern enterprises. Offering comprehensive data protection, it ensures your critical data is securely stored, easily accessible, and protected against threats or accidental loss.

### Why XaasIO?

Enterprise Grade Open Source Software.

Ensures comprehensive and secured Data Backup.

Reduces Total Cost Of Ownership (TCO) for cloud infrastructure.

Provides long-term security updates and compliance with international standards.

## Key Features

**Comprehensive Backup:** Backs up files, databases, and systems for complete data protection.

**Flexible Policies:** Customizable scheduling, retention, and lifecycle management.

**High Availability:** Continuous access through a distributed architecture.

**Multi-Environment Support:** Works with cloud, on-premise, and hybrid setups.

**Scalability:** Adapts to growing data volumes easily.

**Advanced Security:** Encryption, secure authentication, and role-based access control.

**Efficient Recovery:** Fast and reliable data restoration.

**Automation & Monitoring:** Automates tasks with real-time monitoring and reporting.

## Use Case

**Data Archiving:** Archive large data with customizable retention.

**Disaster Recovery:** Rapidly recover data and restore systems.

**Compliance Backup:** Meet data regulations with audit logs and reports.

**Cloud Backup:** Protect cloud applications and databases with flexible options.

## Support & Service

- 24 x 7 engineering support by technical experts.
- Assured response time of 15 minutes and round the clock support to solve critical issues.

## SLAs

- Upto 99.9% availability SLA.
- Read/Write latency SLA
