

Cloud Billing and BSS

> Comprehensive Billing Solutions

Benefits

Enhanced Revenue Management

Automated billing cycles and flexible pricing models streamline revenue generation and minimize manual errors.

Improved Customer Experience

Self-service portals enable instant provisioning, boosting satisfaction and reducing support needs.

Operational Efficiency

Enhances efficiency with integrated management, automation, and reduced maintenance.

Scalability

Scales effortlessly with growth, handling larger customer bases and services with minimal admin effort.

Comprehensive Reporting

Offers detailed billing reports and analytics for deep insights into revenue and usage patterns.

Overview

XaasIO Cloud Billing is designed for cloud service providers using OpenStack, delivering a comprehensive billing solution. It includes features such as self-service provisioning, subscription billing, invoicing, and extensive reporting. The platform supports various pricing models and multiple payment gateways, ensuring flexible and accurate billing cycles. With advanced security measures and integrated service management, XaasIO Cloud Billing enhances operational efficiency and customer experience.

Why XaasIO?

Make in India Company.

Offers comprehensive life cycle administration, including monitoring, alerting, and seamless upgrade.
