

Multi Cloud CMP

➤ Unified Dashboard for Managing Hybrid Environments

Benefits

Centralized Management

Simplifies the oversight of multiple cloud environments, enhancing efficiency and reducing complexity.

Enhanced Compliance

Automated monitoring ensures adherence to regulatory standards and improves security.

Cost Efficiency

Advanced tools for cost management help optimize spending across cloud services.

User Empowerment

A customizable self-service portal boosts productivity by allowing users to manage resources independently.

Scalability

Easily adapts to growing business needs, ensuring seamless expansion and integration.

Overview

XaaSIO's Multi-Cloud Cloud Management Platform (CMP) provides a unified solution for managing hybrid IT environments. It simplifies the administration of containers, virtual machines, networks, and storage across multiple cloud platforms. The platform enhances efficiency, improves compliance and security, and offers tools for cost optimization and performance monitoring. With its scalability and user-friendly self-service portal, it empowers businesses to effectively manage their cloud resources.

Why XaaSIO?

Enterprise Grade Open Source Software.

Offers comprehensive life cycle administration, including monitoring, alerting, and seamless upgrade.

Reduces Total Cost Of Ownership (TCO) for cloud infrastructure.

Provides long-term security updates and compliance with international standards.

Streamlined Deployment

XaasIO's Multi-Cloud CMP uses Ansible playbooks and automated setup, minimizing manual effort and ensuring consistent, reliable cloud infrastructure.

Regulatory Compliance

XaasIO's solution employs SmartState analysis for real-time compliance monitoring of multi-cloud environments, offering risk identification, actionable insights, and centralized reporting.

Comprehensive Cloud Oversight

XaasIO's Comprehensive Cloud Oversight offers advanced management of virtual instances, storage, and networks with real-time alerts, enhancing efficiency and ensuring a reliable cloud infrastructure.

Empowered Self-Service

XaasIO's Empowered Self-Service solution features a user-friendly catalog with shopping cart capabilities and approval routing for streamlined, compliant cloud resource management.

In-Depth Problem Analysis

XaasIO's In-Depth Problem Analysis offers comprehensive performance and resource monitoring with advanced troubleshooting tools for proactive issue resolution and optimized cloud operations.

Automated Cloud Billing

XaasIO's Automated Cloud Billing simplifies cloud expense management with automated invoicing, diverse payment options, and detailed cost reporting for enhanced financial control.

Key Features

Unified Management: Seamlessly manage multiple cloud environments from a single platform.

Compliance and Security: Automated compliance monitoring and robust security features.

Self-Service Portal: Empower users with a customizable self-service portal.

Cost Optimization: Advanced cost management and optimization tools.

Performance Monitoring: Real-time performance tracking and analytics.

Scalability: Easily scalable to meet growing business needs.

Support & Service

- 24 x 7 engineering support by technical experts.
- Assured response time of 15 minutes and round the clock support to solve critical issues.

SLAs

- Upto 99.9% availability SLA.
- Read/Write latency SLA

XaaSIO for a Reason!

XaaSIO MCMP streamlines and automates the management of hybrid IT environments across cloud infrastructures, enhancing operational efficiency and providing comprehensive cloud oversight in a unified platform.
